Abortion is not
just about
her
Story

It changes your life, too.

If her abortion has left you with regrets,

Your story is not over.

Many men find that an abortion affects them in ways they never imagined. If you or your partner are experiencing:

- Feelings of guilt or anger
- Anxiety
- Numbness, depression, loneliness or isolation
- Nightmares or insomnia
- Suicidal thoughts
- Increased use of drugs or alcohol
- Difficulty maintaining relationships

Whether she made the decision with or without you we can help you work through it.

Maybe you weren't the father, but someone you love is hurting from an abortion in her past.

We can help you find hope and healing.

It's time to write the next chapter

While you may be tempted to ignore these problems, they may not go away with time. Many of us have dealt with the same things and found that there is hope.

Let us help you write a happy ending.
