*"When I first went to the Hope Clinic, I was struggling with my boyfriend telling me to have an abortion, and trying to find out how to tell my parents that I was pregnant. While I was at the Hope Clinic, I found a very caring and compassionate staff. They prayed with me and allowed me to talk about my feelings in confidence. They allowed me to contact them any time I had any concerns that I needed to discuss. It lowered my stress level to know that there was someone who was non-judgmental to talk to. The Baby Bucks program is very helpful. The free diaper program has helped me through some financially difficult times. The Hope Clinic is an excellent place for young women to go to help them through the challenges of pregnancy and parenthood."*

Dear Friends,

What a privilege it is to serve the Lord in this life-affirming ministry! It has been an amazing adventure to watch the Lord shape, grow and move this ministry over the past 15 years. In this short amount of time, we have discovered that God is constantly on the move here, never allowing us to settle into a comfort zone, but continuously moving us upward and outward to have a greater impact on Berne and surrounding communities.

And while we are on the move for Him, we are constantly looking for and taking advantage of opportunities to share with our clients the truth about the utmost need of their lives: to know and understand that there is a God in heaven who loves them. What a privilege to share the truth found in Jeremiah 29:11, "For I know the plans I have for you," declares the Lord, "plans to help you, and not to harm you; plans to give you a hope and a future."

In the hopelessness of today's world, it is a privilege to be an arm of the church, and of the family of God, to share a life-affirming,

hope-giving message with a group of people who largely do not step inside the doors of any church. Thank you for supporting us as we venture out and give hope – in the name of Jesus Christ - on this local mission field!

Joyfully Serving,  
Kelly Amstutz, Executive Director

*"When I went to the clinic, I was alone and pretty sure I was pregnant. When I walked through the doors, I found a welcoming environment and truly caring, kind, and concerned women who understood and sympathized with my situation. My experience at the clinic helped me focus on what's important: the health of my baby. Watching videos helped me relax and taught me what to expect so the future wasn't as scary – even labor and delivery.*

*The clinic is more than a charity resource. They help women and children financially, mentally and emotionally. They support, educate, clothe and care for them. Now I am living in an apartment, enjoying the task of caring for my wonderful son, and attending college."*
